

# Colton Hagan

7951 Eagle Creek RD, Leavenworth, WA  
(509) 741-7428 | coltonmhagan@gmail.com | [Github](#) | [LinkedIn](#) | [Portfolio](#)

## SUMMARY

Graduate of Western Washington University with a Computer Science BS Degree. Hardworking individual with communication skills who enjoys a high-pressure team environment. Looking to put my knowledge of computer science to work by designing, coding, testing, and debugging software.

## TECHNICAL SKILLS

**Languages:** Java, C, C#, Kotlin, HTML5, CSS, Javascript, React, PHP, Python, SQL, R  
**Technologies:** MS Office, Google Suite, Git, Trello

## EDUCATION

**Bachelor of Science, Computer Science, 2022**  
*Western Washington University | Bellingham, WA*  
GPA: 3.7 on a 4.0 scale

## COURSEWORK

Operating Systems	Computer Networks	Database Management
Analysis of Algorithms	Web Development	Object-Oriented Design
Advanced Data Structures	Cyber Defense	Computer Systems

## EXPERIENCE

**Assistant Manager**  
**Eagle Creek Ranch | Leavenworth, WA** **Jun 2022 - Aug 2022**

Assistant Manager overseeing daily operations at Eagle Creek Ranch, including making strategic business decisions to enhance efficiency and guest satisfaction. Managed staff and provided customer service to ensure memorable horseback riding and sleigh ride experiences for tourists.

**Android Software Engineer**  
**Western Washington University | Bellingham, WA** **Jan 2021 - Mar 2022**

My senior project where I collaborated with a team of four to develop PageWise, an android reading homework tracker and planner for a Western Washington professor. I utilized Scrum software development with frequent prototyping and seeking client feedback.

**Busser**  
**München Haus | Leavenworth, WA** **Jun 2019 - Jan 2021**

Worked as a busser, greeter, and dishwasher. Provided customer service activities including helping customers pick and decide on their meals, problem-solving unsatisfied customers, and answering questions.

# PROJECTS

---

## **ByteBrawn** ([Github](#)) ([Website](#))

- Online Workout planner
- Express REST API backend with MySQL database
- React Frontend with mobile functionality

## **PageWise** ([Github](#))

- Android reading homework tracker and planner developed using Kotlin.
- SQL backend database.
- Fragments GUI

## **Deadwood** ([Github](#))

- Worked in a two-person team to create the board game Deadwood Studios.
- Utilizes Java's Swing for GUI (See GUI branch on Github).
