SUMMARY

A recent graduate of Western Washington University with a Computer Science BS Degree. Hardworking individual with communication skills who enjoys a high-pressure team environment. Looking to put my knowledge of computer science to work by designing, coding, testing, and debugging software.

TECHNICAL SKILLS

Languages: Java, C, C#, Kotlin, HTML5, CSS, Javascript, PHP, Python, SQL, R
Technologies: MS Office, Google Suite, React, JSON, Git, Trello

EDUCATION

Bachelor of Science, Computer Science, 2022
Western Washington University | Bellingham, WA
GPA: 3.7 on a 4.0 scale

COURSEWORK

Operating Systems	Computer Networks	Database Management
Analysis of Algorithms	Web Development	Object-Oriented Design
Advanced Data Structures	Cyber Defense	Computer Systems

EXPERIENCE

Android Software Engineer
Western Washington University | Bellingham, WA   **Jan 2021 - Mar 2022**

My senior project where I collaborated with a team of four to develop PageWise, an android reading homework tracker and planner for a Western Washington professor. Utilized Scrum software development with frequent prototyping and seeking client feedback.

Busser
MÜNCHEN HAUS | Leavenworth, WA   **Jun 2019 - Jan 2021**

Worked as a busser, greeter, and dishwasher. Provided customer service activities including helping customers pick and decide on their meals, problem-solving unsatisfied customers, and answering questions.

PROJECTS

PageWise (Github)
- Android reading homework tracker and planner developed using Kotlin.
- Utilizes local SQL backend database and fragments for GUI.

Deadwood (Github)
- Worked in a two-person team to create the board game Deadwood Studios.
- Utilizes Java's Swing for GUI (See GUI branch on Github).

BestReads (Github)
- A book review website that allows users to search for and review books.
- Utilizes PHP API backend and HTML frontend.
